Guide to Finding Legally Free EBooks & Scholarly Research

Copyright Statement

Thank you for downloading this free eBook from Literary Spring Designs (http://blog.literaryspring.com). You are welcome to share the link to download this eBook with your friends via social media, email, or word-of-mouth, but please do not host it elsewhere nor remove the credit information. The permanent link is http://blog.literaryspring.com/2016/06/guide-to-finding-free-ebooks-2016/

Table of Contents

Part I: Information About eBooks, eJournals, and This Guide

What is included in this guide?

This guide is focused on eBooks, electronic academic papers, electronic essays, and eJournals in English that can be viewed on a mobile device. Included within the eBooks category are short stories. While sites must include a significant amount of material in English many sites have material in other languages. Many sites also give you the option to read the material online or download it. This guide also includes additional information about eBooks, tips for choosing the best format, and basic troubleshooting for eBook related problems.

Using this guide can I find an eBook or eJournal on the subject I am interested in?

This guide covers a broad variety of eBooks and eJournal sites. Some sites are general and have eBooks on multiple subjects. Some sites focus on a narrow subject. Some are good for finding romance or science-fiction eBooks. Some are useful for finding a citation for a graduate school paper. I made the conscious decision to include sufficient material on the humanities and social sciences as these resources are often less well publicized.

How much technical knowledge do I need to use this guide?

This guide is intended both for those who are just getting started with eBooks and eJournals and for those who simply want to find some new sites. If you need additional technical assistance with your Kindle, Nook, iPhone, Android phone, or other mobile device check the documentation or other resources dedicated specifically to that device or app.

How can I read these eBooks?

Unfortunately, there is no standard format for eBooks. Some of the most common devices for reading eBooks are Amazon's Kindle and Kindle Fire, Barnes & Noble's Nook, and Apple's iPhone and iPad. The iBooks app can read epub and PDF files. Kindles and the Kindle apps can read azw, azw3, prc, mobi, and plain text. Kindles and Kindle apps can sort-of read PDF, but the text and any pictures will be tiny and there may be formatting errors. If you have an iPhone or iPad paid apps GoodReader and PDF Expert are good for reading eBooks in PDF format. Adobe Acrobat Reader is free (with in-app purchases) and available for both iOS and Android.

Why would a site be excluded from the list?

The material cannot be downloaded and read on an eReader.

The material is exactly the same content and format as material available elsewhere.

The material obviously violates copyright.

The site is filled with dead links or so poorly designed that finding and accessing eBooks is excessively difficult.

The eBooks cost money even if there is a rebate or future discount.

Sites that require registration are included in a short list at the end.

Personal author sites are not included nor are sites with very small collections.

The site is primarily dedicated to fan fiction.

Sites dedicated to porn or hate speech have been excluded.

I use McAfee Web Advisor. If I type in the URL or click on a link to the site and get a warning from McAfee, the site will not be included in this guide.

I do not know about the site. I have done extensive searching for sites, but the internet is huge and it is always possible to miss a site.

As stated above, sites are excluded if the majority of material is not in English. This is to ensure that I was able to evaluate each site fairly rather than being limited by my lack of fluency in the language.

Why did the link to the site not work or take me to an odd site?

While the links have been checked multiple times the internet is not static and sites are reorganized, moved, or shut down. If you reach a dead link try going to the main URL (ie http://www.google.com) and check the navigation or the search function to find the page. If you cannot connect at all it usually means that either you are having problems with your internet connection or the site is having problems. If it is the latter there is nothing to do except wait until the issue is resolved.

Since the eBooks are free can I do anything I want with them?

The fact that an eBook is free does not mean that you have the legal right to do anything you want

with it. Please check the terms of use particularly if you would like to distribute the eBook. Be aware that free eBooks, particularly the free non-public domain eBooks in the Kindle store, are sometimes only free for a limited amount of time. If you see a free book that you think you might want to read download it while it is free. You can always wait and read it later.

Will I be offended or hate any of the eBooks?

While so-called adult sites have been excluded, this guide is intended for adult readers who have the maturity to make their own decisions about what they wish to read. The listed sites contain material with a variety of viewpoints and tastes including older books that reflect the attitudes and standards of a different time period and culture. The annotations have been provided to help you choose sites. If you hate science-fiction, skip the Baen Free Library. If you do not want to read about Christianity, skip the Christian Classics Ethereal Library.

Is every book or journal article available legally in eBook format?

No. It is common for print books published in the last 5 years to also be published in eBook format and some books are only available in eBook format, but only a small percentage of older non-public domain books are available as eBooks. Most Journals are not accessible to the general public in electronic format.

Important Note about Copyright

I have checked all sites for copyright violations. However, I am not a lawyer. Project Gutenberg alone has over 50,000 free eBooks making it is impossible for me to check the copyright for every eBook. The included sites are sites that are part of major universities, major companies, state their copyright checking policies, or otherwise appear to be copyright compliant. Please note that the length and terms of copyright vary by country so an eBook that is out of copyright in one country may still be in copyright in another country. Copyright law has at times been slow in keeping up with technological change and there are ambiguous cases. It is your responsibility to make decisions about downloading eBooks and eJournals based on the laws and culture of where you live.

Part II: Sources for Ebooks

Primarily Older Public Domain Books

Project Gutenberg
http://www.gutenberg.org
http://gutenberg.net.au
http://gutenberg.ca

The main archive has over 50,000 free eBooks. The vast majority are older books that are now in the public domain as the copyright has expired. On the main site eBooks can be downloaded in plain text, ePub, Mobi (Kindle), or online in HTML. Project Gutenberg Australia and Project Gutenberg Canada have materials in TXT and HTML formats. There is a Project Gutenberg Europe, but virtually every link I tried gave me an error message. EBooks go through a multiple stage editing process leading to fewer scanos and other errors. As per the terms of Project Gutenberg many other archives include eBooks from Project Gutenberg in their collections.

eBooks at Adelaide

http://eBooks.adelaide.edu.au/

This collection of classics includes anthropology, archeology, art, biography, economics, exploration and travel, gastronomy, history, law, literature, medicine, myth and fable, philosophy, politics, psychology, religion, and science. EBooks are available in ePub, Azw3 (Kindle), and HTML (in a zip file) formats. This archive includes non-English language eBooks. There is a search function. Browsing by author, title, and subject is also available.

Internet History Sourcebooks Project
http://www.fordham.edu/halsall/

Sourcebooks are divided into categories including Ancient History, Modern History, Medieval, Byzantine Studies, African, East Asian, Islamic, Global, Indian, Jewish, Lesbian and Gay, Science, and Women's Studies. The format of the texts varies.

LibriVox
http://librivox.org

Librivox provides free public domain audiobooks in mp3 format as a zip file or as separate mp3 files for each chapter. M4B format is available for most audiobooks. The audio books can be downloaded from the main website, directly from the RSS feed, or by subscribing through iTunes. The audiobooks are read by volunteers. You can browse by author, title, genre/subject, and language. LibriVox is located in the United States and, thus, defines public domain according to the terms of United States Law. While the majority of materials are in English, non-English language materials are allowed.

ManyBooks.net
http://manybooks.net

This archive has a smaller collection than sites such as Project Gutenberg, but it has a particularly large number of options in terms of format including ePub, iSilo, Mobi, LIT, PDF, PKG, PRC, AZW (Kindle), TXT, and more. You can use the search function or search by genre, title, or author. There is a listing for series and other helpful lists including reader recommendations and recent additions. This site also includes a list of over 250 book reviews. The site includes both free and discounted ebooks.

General Collections

Feedbooks
http://www.feedbooks.com

Feedbooks includes both paid and free eBooks. The free eBooks include public domain books and newer original books that have been included by the author(s). You can browse free public domain eBooks or free original eBooks. There is a search function, but there is no way to limit your search to only free eBooks. Formats include ePub, PDF, and Mobi (Kindle).

Google Books
http://books.google.com
http://google.cat/advanced_book_search

Google Books is an ambitious archive. However, only a fraction of the books are available for download in ePub and PDF format. Google Books offers simple and advanced search options. Using the simple search function you can filter the results to only free Google eBooks, only books or magazines, the time range of publication, and sort by relevance or date. The advanced search function

allows you to search by title, author, publisher, subject, publication date, ISBN, ISSN, language, books versus magazines, and by whether you only want eBooks that are available for full view or also want ones that only include a preview. You can search by all words, exact phrase, at least one word, and filter out eBooks with a certain word in the title.

Internet Archive
http://www.archive.org/details/texts
    This large collection of over 10,000,000 eBooks and texts range from popular fiction to historical texts to academic books. Available formats vary by eBook or text. There are separate collections you can search including several libraries and US government documents. Some material is public domain, but there is also a substantial amount of newer material under Creative Commons licenses.

MobiPocket
http://www.mobipocket.com/freebooks/default.aspx
    Mobipocket has over 3,000 free eBooks in Mobi format. The eBooks are divided by categories and are primarily fiction. Categories include English Literature, American Literature, Romance Literature, Germanic Literature, Children's Literature, French Literature, General World History, Home Economics, Poetry, and Egyptian History. Languages vary with a flag under the eBook title used to show the language of the eBook.

Wikibooks
https://en.wikibooks.org/wiki/Main_Page
    This is a relatively new project so it has a limited selection. The books can be read online or can be downloaded as a PDF. To download a PDF go to the menu on left and select "Download as PDF". For some books a link to a PDF file is listed under the section "Book Contents". There is a search function. You can also create a collection for downloading multiple eBooks at once. Collections can be exported as PDFs or plain text.

Specialty Archives

Antique Pattern Library
http://www.antiquepatternlibrary.org
    This small collection has scans of public domain pattern books in PDF format. Please note the Creative Commons License and Conditions of Use.

Baen Free Library
http://www.baen.com/library/
    Baen contains a collection of science-fiction eBooks including works by well-known writers Mercedes Lackey, Lois McMaster Bujold, Larry Niven, Jerry Pournelle, and David Weber that can be downloaded in several formats including ePub, Mobi, PRC, LIT, RTF, and LTF. There is also an "Email book to my Kindle" option. You can browse by series, author, or title.

Choral Public Domain Library
http://www2.cpdl.org/wiki/index.php/Main_Page
    This large library makes sheet music available in PDF format. The sheet music is either in the public domain or has been offered for download by the composer. In some cases a music file is also available.

Christian Ethereal Library
http://www.ccel.org/
Along with material that can only be viewed online, this site has writings of Church Fathers that can be downloaded in TXT format. There is also a Hymnary which includes downloadable sheet music in PDF format.

eFanzines
http://efanzines.com/
This archive allows editors to include science-fiction fanzines in PDF, HTML, or other standard format. Some of the fanzines are divided into parts.

IN Harmony: Sheet Music from Indiana
http://webapp1.dlib.indiana.edu/inharmony/welcome.do
IN Harmony has sheet music in PDF format. You can browse by name, title, year, instrument, genre, or subject. There are also multiple search options.

Pope Francis on The Vatican Website
http://w2.vatican.va/content/francesco/en.html
Texts of Pope Francis' Apostolic Constitutions, Apostolic Exhortations, Apostolic Letters, Audiences, Bulls, Encyclicals, Homilies, Letters, Messages, Prayers, Speeches, Motu Proprio, and Daily Meditations are available in PDF format. To load the PDF and download it click on the PDF symbol on the top right of the page after the print icon. Some writings are only available in Latin.

eBook Directories

These sites do not host the eBooks, but link to sites that do. Available formats will vary as do the terms of use.

eBook Directory
http://www.e-booksdirectory.com/
This site links to over 9,600 free eBooks in over 670 categories including arts and photography, biographies and memoirs, business and investing, children's books, comics and graphic novels, computers and the internet, cooking and food and wine, engineering, entertainment, health and mind and body, history, humanities, law, literature and fiction, medicine, nonfiction, religion & spirituality, outdoors and nature, science, science-fiction & fantasy, and travel. Available format varies by eBook.

eBook Lobby
http://www.ebooklobby.com
This site links to downloadable eBooks in a variety of categories including art and photography, biographies and memoirs, business and investing, children's books, computers and the internet, cooking and food and wine, health and mind and body, home and garden, law, sports, travel, entertainment, and literature. Browsing by topic is available and there is a search function using Google.

Free Book Centre
http://www.freebookcentre.net/
This site offers links to thousands of free computer eBooks. Topics include computer science, computer languages, Java and J2EE, Linux and Unix, Cisco Certification, web and internet technology,

graphics and web development tools, database systems and management, computer networking, other computer topics, mobile technologies, mathematics, Microsoft technologies, physics, electronics and communication, electrics engineering, medical, and file system specifications.

Free Computer Books
http://freecomputerbooks.com/
Books can be found by using the search function or by browsing the categories on the menu. Subjects include computer languages, database and storage, electronic engineering, Linux and Unix, mathematics, software engineering, and web design and programming. You can also search by the year the eBook was published and by recent eBooks.

Free Tech Books
http://www.freetechbooks.com/
The main categories are computer science, mathematics, supporting fields, operating systems, programming/scripting, miscellaneous, and general. You can search by category, author, publisher, or license. Available formats vary as the eBooks are hosted by the authors or publishers.

Get Free eBooks
http://www.getfreeebooks.com/
This site has links to legally available downloadable free eBooks. There are a variety of subjects featured with some of the larger ones being business, computers and the internet, education, family and kids, fantasy, fiction, health and fitness, hobbies and interest, humor, internet marketing, money and finance, novels, people and relationships, religion, personal development, science-fiction and self-help. There is a search function or you can search by category or tag.

Scholarly, and Academic Collections

Arxiv.org from Cornell University Library
http://arxiv.org
This collection includes over 600,000 eBooks in biology, computer science, mathematics, physics including astrophysics, quantitative biology, quantitative finances, and statistics. The format varies, but usually includes PDF.

Australian Literary and Historical Texts
http://setis.library.usyd.edu.au/oztexts/ozlit.html
The Australian Literary and Historical Texts has over 300 texts. Texts are listed by author and are in PDF format and, in some cases, HTML format.

Digital Collections at Stanford University
http://collections.stanford.edu
The digital collection at Stanford is diverse with categories including California Legislative Journal Appendixes, Copyright Renewal Database, Corporation of Foreign Bond Holders (U.K.), Dime Novels Full Text, Documents to the People, Douglas Menuez Photography Collection, Eliasaf Robinson Tel Aviv Collection, GATT Digital Libraries, Historical Encyclopedias of the Social Sciences, Image Gallery, Immigration Commission Report and Report on Women and Child Wage Earners, Joint Committee on Atomic Energy, Medieval and Modern Thought Text Digitization Project, The Super-Enlightenment (18th century French works), Survey on Race Relations, SUL Books in the Public Domain, and University Publications. This site also has audio and video materials including the

Monterey Jazz Collection with over 1000 hours of material. There is a simple and advanced search or you can browse within a category. Browsing options vary by category, but common browsing options are year, title, and subject. Several categories including the Dime Novels Full Text include color illustrations. As the PDF files come from scans they cannot be converted into text with a PDF reader.

CaltechThesis: A Caltech Library Service
http://thesis.library.caltech.edu/
     Browsing and both simple and advanced search options are available for viewing Caltech theses in PDF format. Some theses are only available to the Caltech community, but many are public.

ETD@VT
http://vtechworks.lib.vt.edu/handle/10919/5534
     You can browse by author or department or use the searh function. Theses are in PDF format. Some theses are limited to the Virginia Tech Campus Network.

Open Culture
http://www.openculture.com/free_ebooks
http://www.openculture.com/free_textbooks
This site lists links to 800 Free eBooks formatted for an iPad, Kindle, and other devices. It also includes 200 Free Textbooks and 700 Free Audio Books. It also includes links to free course, language classes, and 1150 Free Movies. The site states that it will comply with copyright restrictions.

Project Euclid
http://projecteuclid.org/
     Project Euclid is dedicated to the fields of theoretical and applied mathematics and statistics. The archive has mathematics and statistics resources available for download in PDF format. There is a search function. Browsing is available by journal name, publisher, and discipline. A colored square next to journal name indicates whether it is open access, partial access, or for subscribers only.

The Pew Research Center
http://pewresearch.org/
     The Pew Research Center is an American organization that describes itself as nonpartisan and provides information about American's attitudes towards a variety of issues. There are tabs at the top to browse by surveys on U.S. Politics, Media and The News, Social Trends, Religion, Internet and Tech, Science, Hispanics, and Global issues. There is a search option on the top right corner. Once you click search you can then refine your search by date and research area. Browsing is available by topics, data, methods, interactives, fact tank, and experts. Recent or spotlighted reports are listed on the main page. The PDFs are located on the right sidebar.

RUcore: Rutgers Community Repository
http://rucore.libraries.rutgers.edu/etd/
     This repository has a searchable collection of theses and dissertations from Rutgers University. Theses are in PDF format. There are simple and advanced search options. Searches can be limited to text, images, audio, and video.

Supplemental Resources at MIT
http://ocw.mit.edu/resources/
These supplemental resources include biology, chemistry, electrical engineering and computer science, physics, management, urban studies and planning, and other courses offered at MIT. These resources

are not limited to MIT students. Besides eBooks these resources include videos.

Textbook Revolution
http://textbookrevolution.org/index.php/Main_Page
Textbook Revolution is a student-run site dedicated to increasing the use of free educational materials by teachers and professors. This site includes links and reviews to a variety of free textbooks and encourages teachers and professors to consider including these free resources into their classes. Unfortunately, this site has a number of dead links, but it has enough good material that I am including it in the list.

Non-commercial Sites that Require Your Email Address or an Account

epubBooks: Unleash Your Books
http://www.epubbooks.com/books
    A search function is available and you can browse by title, author, and subject. A short excerpt is available for each eBook. All eBooks are free to download, but you must create an account and be logged in to download eBooks. All eBooks are DRM-free and available in both ePub and Kindle format.

Oxford Text Archive
http://ota.ahds.ac.uk/catalogue/index-id.html
    This small collection from Oxford University allows you to download works that are still in copyright if you agree to the terms and provide your email address. Click on the link to "more info" to see what formats are available. Some texts are restricted and others are free.

NoiseTrade
http://books.noisetrade.com/
NoiseTrade allows readers to download free eBooks in exchange for their email address and postal code (zip code). This information will be passed onto the publisher of the eBook. You agree to receive occasional email updates, but you can unsubscribe from those at any time. You can expediate the process by creating a fan account with NoiseTrade. NoiseTrade accepts PDF, ePub (iBooks & Nook), and Mobi (Kindle) formats, but not all eBooks are available in all three formats. There is an option to leave a tip for the author using PayPal and it is easy to post a recommendation via social media. NoiseTrade eBooks are Digital Rights Management (DRM) free.

Commercial Sites that also offer free eBooks and eBook samples to Registered Users

    The bookstores listed below offer free samples of eBooks and a small number of free eBooks. Some free offers are for a limited time only so if you think you may be interested in the eBook download it when you see it. Unlike the others, Smashwords offers a variety of non-DRM formats.

Amazon
http://www.amazon.com

Barnes & Noble eBooks

http://www.barnesandnoble.com/ebooks/index.asp

Smashwords
http://www.smashwords.com/books/category/1/newest/0/free/any

Part III Additional eBook and Searching Tips

Finding eBook Recommendations & Information

GoodReads
http://www.goodreads.com
GoodReads allows users to post reviews and ratings for books they have read. These reviews and ratings can then be used by others to find recommendations. Some features including posting lists of books or joining in a discussion group or book club require you to have a free account, but reviews and ratings can also be read by those without an account. GoodReads is integrated into newer Kindles and has an apps for Android and iOS (iPhone and iPad. Check the Kindle User's Guide for more information about accessing it on your Kindle.

Wikipedia's List of Books
http://en.wikipedia.org/wiki/Lists_of_books
This page includes a long list of book lists divided by categories as diverse as Lists of Books About World War I, List of Books about Kites, List of Fantasy Novels, List of Works by Leo Tolstoy, List of Buffy the Vampire Slayer Books, List of Nancy Drew Books, and Lists of Fiction Employing Parallel Universes.

Creating eBooks from Wikipedia, Wikiquote, and Wikisource

Wikipedia now allows you to export an article in PDF format or use the Book Creator to create a PDF book with multiple articles.

Under Print/export in the left column click on the link that says "Create a book." Then click "Start Book Creator". Please note that clicking on this link will not automatically add the article you were on to your eBook.
As you view articles in Wikipedia you will see the "Add this page to your book" option at the top. Click on it to add the article to your eBook.
You can also click on "Suggest pages" and add suggested articles.
When you have selected all the articles you want click "Show book". You can then organize the order of your articles, delete any you decide you do not want to be part of your eBook, and choose a Title and Subtitle.
In the right column you will see an option in the Download box for creating a PDF. Click "Download".
Wait for the PDF to render. Click on the "Download the file" link and the PDF file will open. Save the PDF file to your computer (or a flashdrive). The default filename is "index" so you might wish to change it to something more descriptive. You can then add to your eReader using the transfer instructions for your eReader.

Part IV Answers to General Questions about Finding More eBooks

Can I get free eBooks from a Library?
Many public and academic libraries offer eBooks. Often the eBooks are part of an external collection. As is true for print books at the library, these eBooks can usually only be checked out for a limited amount of time. There are often limits on the number of digital copies that a library has available. If your library only has three digital copies and three other library patrons already have checked out those copies you will have to wait just as you would have to wait for a physical book if all the copies were checked out. If you want to read the eBooks on a mobile device check the formats available. Some of the eBooks that are available for checking out can only be read online or in formats that do not work well on a mobile device. If you have more questions check the library website or ask a librarian.

I really need an article in electronic format and I can't find it. Help!
This guide is focused on material that anyone can access. Many public and academic library websites have subscriptions to databases with journal articles, newspapers, magazine articles, and other. Usually you need to use your library card number or other log-in information provided by your library. Check your local library website or ask a librarian for more information.

Can I sample that eBook?
Many publishers and online bookstores allow you to download a free sample of an eBook. The sample length varies. In a few cases it only includes the title page and table of contents, but often it includes one or two chapters of a eBook. This is a great way to discover eBooks you might not otherwise read.

Why am I getting an error message when I try to read a PDF file with my PDF Reader?
PDF readers such as GoodReader and PDF Expert extract text from a PDF so that you can read the file more easily on a mobile device. This process does not work for pictures in a PDF. Thus, if your PDF file is a scan of text it cannot be extracted. Symbols or non-Latin characters can cause problems. If neither of these possibilities explain the problem, check the support options for your device and/or application.

Can I convert a one eBook format (ie ePub) into another format?
There are a number of free programs that allow you to convert between formats. If the file is in doc or text format you can open it in Word and save it as a PDF. If you have Pages, you can open the file and export it as a PDF or ePub. If you plan to convert it into another format choose ePub. In Open Office (http://www.openoffice.org), save it as a PDF or if you want it in any other format save it in odt format and convert to using Calibre . Calibre eBook Management (https://calibre-ebook.com) is excellent for converting between formats. Calibre is available for Windows, OS (Mac), and Linux. Calibre's input formats are CBZ, CBR, CBC, CHM, ePub, FB2, HTML, LIT, LRF, Mobi, ODT, PDF, PRC, PDB, PML, RB, RTF, TCR, and TXT. Its output formats are ePub, EB2, OFB, LIT, LRF, Mobi, PDB, PML, RB, PDF, TCR, and TXT. Calibre is updated frequently. EBooks with Digital Rights Management (DRM) usually cannot be converted between formats.

Can I covert a PDF file into ePub, Mobi, or other eBook friendly format?
It is usually difficult to convert a PDF to another format and often the results are unreadable. Depending on your PDF reader, you may have the option to extract the text from your PDF and save

the text file. You can then edit the text file in your word processing program (Open Office, Pages, Word) and export it as described in the answer to the previous question. If your PDF reader does not have that option and the PDF is text (vs images) you can try highlighting all of it and cutting and pasting it into your word processing program, editing it, and then exporting it into an easier to convert format.

What searching tips can you offer once I am on an eBook site?
If you have no idea where to start, use the browsing option if there is one.
Try searching for related or alternate terms. If you are looking for an eBook on restaurants in Rome try searching under "Rome" and "restaurant". If you are looking for an eBook about Van Gogh's paintings search for "Van Gogh", "paintings", and "art". Sometimes eBooks are not listed under seemingly obvious search terms.
Some sites include recommendations under headings such as "You may also like", "People who purchased this also purchased", etc.
Some sites include a hyperlink to a page listing all of the author's eBooks available on the site.

This eBook is from Literary Spring Designs (http://blog.literaryspring.com).
